BOTH GIVE INVITATION

or Next Year's Convention of Charities and Corrections.

Stamford, Conn., April 18 .- The fifth annual convention of the Connecticut state conference of charities and corrections, which will last three days, opened here tonight in a local theatre. The delegates were welcomed by May-The delegates were welcomed by Mayor John M. Brown. Addresses were
made by Schuyler Merritt of this city,
president of the conference; Miss
Julia C. Lathrop, director of the children's bureau at Washington, D. C., on
The Nation's Children, and Samuel
McCrothers of Cambridge, Mass., on
Interesting the Public in Modern
Philanthropy. Philanthropy President Merritt appointed the fol-

lowing committee, which will nominate officers for next year and recommend omeers for next year and recommend the next meeting place: Mrs. F. A. Mitchell, Norwich; Eugene Kerner, Waterbury; Rev. John Neale, Meriden; Charles P. Kellogg, Waterbury, and Mrs. F. W. Wright, Stamford. Norwich and Meriden have extended invitations for the conference to meet with them. It was believed tonight that Norwich would be selected, with Meriden as the meeting place a year later.

ARMY WORM AGAIN.

Appearance of the Pest Reported in Some Parts of the State.

The army worm has again made its appearance in various parts of Con-necticut, and the state board of agrinecticut, and the state board of agri-culture makes suggestions as to the best means of checking and destroying the dreaded pest. The following, is-sued by Secretary Healey of the state board, will be of value to every farmer whose fields may be invaded by the worms: worms: The crops most likely to be attacked

by the army worm are cats and millet. The damage to these, if attacked, may be greatly lessened if prompt measures are taken to eradicate the worm. As soon as first seen, the oats or millet should be cut and kept stirred up as much as possible. As soon as they are fit to go to the barn or stack, shake them well and remove. Then prepare a mixture of bran, paris green in the proportion of 25 pounds of bran to 1 pound of paris green, mixing thoroughpound of paris green, mixing thoroughly, using enough molasses and water to make it mashey. Sow this broadcast over the field infested. A second application may be necessary. If there is a field adjacent to or near by of corn or some other crop likely to be attracted it should be protected by plowing a furrow around it, going back and forth with the plow five or six times in the same furrow both ways. This tends to same furrow both ways. This tends to make the ditch deep and more abrupt with the dirt finely pulverized, making with the dirt finely pulverized, making it harder for the worms to get a foothold in crawling ever it. It is sometimes necessary to make two or three ditches about 10 feet apart. When they are prepared, the bottom of the ditch or ditches should be strewn with the mixture of bran and paris green.

Miss Ethel Drew of New Haven reported for the junior unions.

A large banquet was held Friday evening at the parish house with Dr. Powers as guest of honor and George L. Champlin as toastmaster.

SCHOOL ROOM CLOSED THROUGH SCARLET FEVER Primary at Broadway-Bennie Bruckner Developed the Disease.

Because of a case of scarlet fever developing on Sunday in one of the children who has been a pupil in the primary room at Broadway school, the room was ordered closed for three games and waiting for the others in weeks by Health Officer Dr. N. B. Lewis, and he is also requesting the parents of all children in the room to keep their children at home and away from contact with others and from public gatherings for the same length

of time.

The child affected is Bennie Bruckner, son of Mr. and Mrs. Abraham Bruckner, of No. 57 Franklin street. The boy was in school Friday and on Sunday the disease developed and he was taken to the isolation ward at the Backus hospital. The school room will be fumigated. There are about 30 children in the primary room.

SACRAMENT OF CONFIRMATION Theme of First Sermon at St. Patrick's Church by Rev. Francis J. Kuster.

Preaching his first sermon at the high mass in St. Patrick's church Sunday, Rev. Francis J. Kuster explained the obligations of all Catholics who firmation to live worthy of it. This is the sacrament which gives strength and grace to profess one's faith and to reactice it in one's daily living.

It is the desire to make this association the clearing-house of the ideas claim the clearing house of the ideas claim. giving confirmation confers, preacher said, the inestimable lege of being a member of the Roman who defend the fort, infinitely worse than can be any enemy without. His hearers were exhorted to live worthily in the first class, by the avoidance of sin and the frequentation of the sacraments, ever mindful of the symbolism of the cross with which their foreheads were annointed during the reception

confirmation.

At the offertory the Bach-Gounod Ave Maria was sung by Miss Isabel

OTIS LIBRARY NOTES.

April Bulletin and New Books-Petty Thieving and Magazines Mutilated. The library bulletins for April are eady for distribution. The sidewalk on the Church street The sidewalk on the Church street side of the library has been repaired by a top dressing of concrete. The library has purchased A History of Science, a set of ten volumes, written by Henry Smith Williams. Volumes 7 and 8 have been added to the set of Hawkins' Electrical Guides. Volume 7 deals with Circuit Breakers and Measuring Instruments, the A. C. systems. Volume 8 treats of Wiring, Power Stations, Installation and Operation and A. C. Switchboards.

witchboards. The library has been much disturbed by the mutilation of magazines and newspapers, also the petty thieving of the rubber rings from the newspaper files in the reading room. When de-tected, the guilty party will be pun-ished to the extent of the law. Eighty took advantage of the reading room Sunday.

POTATO HINTS, Circular Issued Through Agricultural Authorities of the State.

joint circular on Potatoes has just been issued by the extension de-partment of the Connecticut agricul-tural college and the two agricultural stations of the state. It has been pre pared and revised by members of the staff of both the college and the stations, and represents, therefore, the views and teaching of all these insti-

The circular gives directions for planting and growing potatoes, following the methods that have been found. both by experiment and experience, to be most profitable, and also describes the best methods of protection against nsects and disease.

It is planned to issue similar circulars from time to time, on other matters of farm practice.

Copies are to be had by applying to the extension department of the agricultural college, or to either of the agricultural stations.

Diverce for Desertion.

COAL

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets - the substitute for calomel — are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these ittle olive-colored tablets.
These pleasant little tablets do the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays have with the gume. sometimes plays havoc with the gum So do strong liquids,
It is best not to take calomel, but to

lazy feeling come from constipation and a disordered liver. Take Dr. Ed wards' Olive Tablets when you feel "loggy" and "heavy." Note how they "clear" clouded brain and how "perk up" the spirits. At 10c and 25c per box. All druggists. The Olive Tablet Company, Colum-

bus, O.

Foot and Mouth Rules Modified o

April 19. Orders issued Saturday from Washington by the department of agricul-ture, effective April 19, alter the live-New England states as follows:
